Our Personal Message

By JACK G. LINSE

Once again we come to you with our listing of the world's finest varieties of tall bearded irises. Many new ones have been added, and others discontinued, keeping our offerings representative of the finest—truly "Irises of Distinction". We have a remarkably fine stock to offer; all have been divided, replanted, grown and will be shipped by the writer—A REAL PERSONAL SERVICE. Every rhizome shipped will be of the size and quality that few others offer, you need not be satisfied with less.

THE WORLD'S FINEST IRIS RHIZOMES

There is no other flower of such great beauty as the modern iris that is so easily grown and so adaptable to various soils and climates. They will do well almost anywhere, but there seems to be one particular place where they do better than in any other—and that place is the Yakima Valley. This arid valley with its virgin soil, unleached by heavy rains, and its long, warm growing season, has been found to produce the world's largest and finest rhizomes. This is an established fact and conceded by all who have seen them. The very cream of these Yakima rhizomes come from Easy Breeze Gardens, grown in rich silt soil with the judicious use of water, and under the personal care of the writer. This personal care, together with the finest soil and climate, coupled with just the right amount of water when, and only when needed, are responsible for our success in growing rhizomes of the largest size and finest quality—rhizomes both large and firm, that will grow, increase and bloom for you far better than smaller, inferior ones could possibly do. Genuine success in gardening can only be had with good plants. There just is no substitute for Easy Breeze size and quality!

VISITORS ALWAYS WELCOME

Come and see our fine stock, especially at blooming time in early May. In addition to the ones listed we have some of the very newest of which we do not have sufficient stock to list, and some seedlings from various hybridizers. Ladies will be well advised to bring sun hats and garden shoes. Our garden is on North 16th Avenue, about two blocks north of Fruitvale Boulevard; directly in back of the furniture factory. Visiting hours are from 8 to 5, or call us at 3935.

TERMS OF SALE

CASH WITH ORDER, check, draft, or money order. Residents of Washington State kindly add 3% sales tax.

POSTAGE PREPAID on orders of \$3.00 or more. On smaller orders add 35c for postage and packing.

SHIPMENT during the months of July, August and September.

NO SUBSTITUTIONS unless second choice is given, and if stock is sold out refund will be made promptly. We reserve the right to accept or refuse an order, or any part thereof, depending on the amount of stock on hand, and whether at shipping time it is in good condition to be sent.

CHOOSE YOUR OWN EXTRAS

Last year we listed no money saving collections, nor are we doing so this year, chiefly because of the space they would consume in our catalog. We have, instead, sent out valuable extras, but have found that on more than one occasion these have been duplicates of something our customer already had. To avoid this we are allowing you to choose your own extras this year. On all orders of \$10.00 or more you may choose 50% more as extras. For \$10.00 select \$5.00 worth of extras, for \$30.00 select \$15.00 worth, and so on. These two simple rules must be observed: First—List your extras separately, and name several acceptable substitutes for extras chosen if you order after May 1st. Second—scarce items, marked with an asterisk (*) and limited one to a customer, will not be sent out as extras, but may be ordered in the regular way and you may choose extras to 50% of their value as with all of the others. Full value assured. Check our list, read our guarantee, and order early!

POSITIVE MONEY BACK GUARANTEE

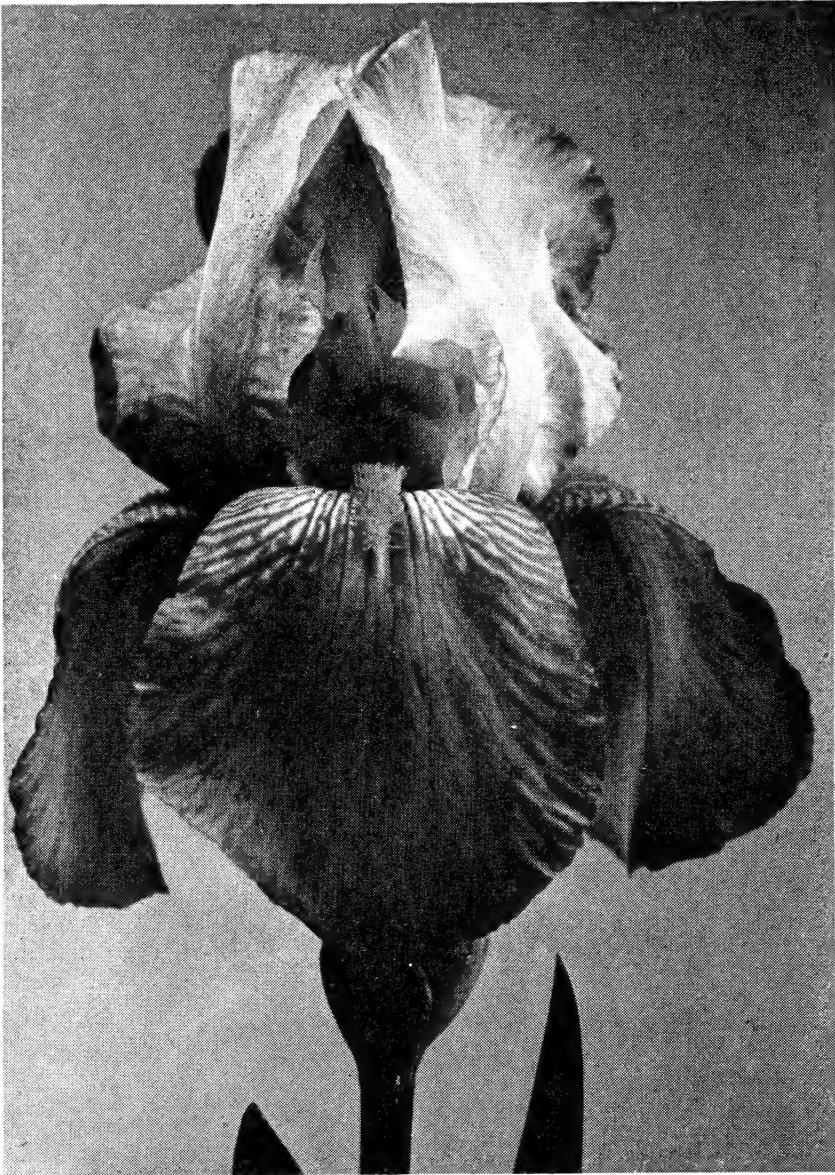

If upon receipt of your shipment you do not agree that it is **ONE OF THE FINEST YOU HAVE EVER HAD**, return all or any part that is unsatisfactory at once, and we will refund the full purchase price, plus postage, on all such items. Stock State inspected, free from disease and pests, true to name, and to arrive in good growing condition. We cannot assume responsibility for their growth after safe delivery, over which we have no control.

ARRANGEMENT OF COPY AND MEANING
